

# Cisco Green Pay

Turn sustainability goals into reality with Cisco Green Pay

As companies take action to reduce waste, they are looking for ways to build a more sustainable IT strategy and deliver outcomes that have less impact on the planet. Cisco Green Pay helps you align your business needs with your company's Environmental, Social and Governance (ESG) goals and provides a path for businesses of all sizes to access Cisco's sustainable solutions.

Cisco Green Pay supports the circular use of Cisco's sustainable technologies.

At the end of the term, the product is recovered by Cisco free of charge. Your return will generate written confirmation the equipment has entered Cisco's Circular Economy Program.

Cisco Green Pay enables you to support the circular economy and helps you address your sustainability goals:

- It enables you to transition to the latest green technologies and solutions.
- You benefit from the latest innovation while maximizing your budget.
- You have the ability to include Cisco Refresh certified remanufactured hardware.

“By moving from product ownership to a circular economy model, we are now guaranteed a state-of-the-art technology update in alignment with our zero-obsolence strategy, while being reassured on how this equipment will be reused once it reaches end of life.”

**Diego Zengin**  
Global Communications, Infrastructure and  
Operations Director, Cosentino
