

HPE Financial Services

Creating smarter IT lifecycles

Navigate

Economic Uncertainties

Unpredictable business landscape arising from inflation, rising interest rates, budget cuts, tariff impacts, and geopolitical tensions collectively create a complex and turbulent business environment, significantly influencing decision-making for businesses, policymakers, and consumers alike.

Flexible Payment Options

Payment Deferral Program

Buy now and pay later. Get the equipment you need today and make no payments for the first 90 days.

1. Zero payments for up to 90 days
2. Followed by 36 low monthly payments

Payment Relief Program

Acquire the IT your business needs today with reduced payments for the first 6 months.

1. Lower payments: Pay 1% of the solution value monthly for the first 6 months
2. Pay as low as ~3% monthly for the remainder of 30 months

HPE Extended Deployment Services

Beat inflation and lock in the price with predictable payments. Acquire technology now with the flexibility to deploy systems later.

1. Obtain up to 12 months of "advance IT need" on day one
2. Begin payment once activated, up to 12 months from shipment

Secure your price today, preserve your cash flow, and pay over time. Let us help you build an IT investment solution that supports your business goals and navigates the economic uncertainties.

Eligible products:

- Workplace products – Desktops, notebooks, and workstations
