Turn Your PC Refresh Into an AI-Ready Strategy

Is Your Fleet Ready for Where Work Is Headed?

AI Is Reshaping the Refresh Decision

AI readiness is becoming a fleet planning priority, not a future consideration.

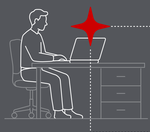

With more than 2,200 architects and 1,000 partners spanning a full range of technologies, CDW brings the expertise and scale to support your AI-ready refresh.

We help assess your device environment and align your strategy to users, workloads and AI-ready capabilities.

AI Is Moving Into the Workday

Organizations are no longer just experimenting with AI. They are expanding AI use across departments and embedding it into everyday workflows.

61% of organizations are embedding AI directly into workflows.[2]

67% are expanding AI initiatives across departments.[2]

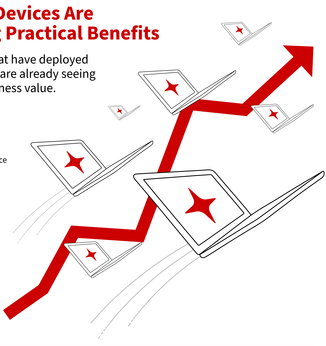

AI is becoming part of how work gets done, which means endpoint strategies need to keep pace.

CDW helps organizations connect AI use cases to real endpoint needs, so device decisions are based on how people work now and where work is headed.

AI-Ready Devices Are Delivering Practical Benefits

Organizations that have deployed or piloted AI PCs are already seeing measurable business value.

70% report faster performance and reduced latency.[2]

66% report increased employee productivity.[2]

58% report improved data security.[2]

CDW helps organizations match AI-ready devices to the right users, roles and workloads so performance gains and productivity benefits can scale across the fleet.

The CDW Pathway to an AI-Ready Fleet

ASSESS
fleet readiness across users, devices and business priorities.

IDENTIFY
visibility gaps, performance risks and areas where current devices may hold users back.

MAP
devices to user needs, roles, workloads and AI use cases.

CHOOSE
AI-ready hardware with the right performance, battery life, security and acceleration capabilities.

DEPLOY
with coordinated procurement, configuration and rollout support.

RECOVER
Recover, redeploy, remarket or responsibly recycle retired assets.

Why CDW?

2,200+ architects

1,000+ partners

End-to-end lifecycle expertise

BUILD A SMARTER AI-READY FLEET WITH CDW.
