

# BASIC TRAINING FOR ENTERPRISE SECURITY

▶ Lessons learned from 4,000 security assessments conducted by CDW can prepare your IT troops to address common vulnerabilities. CDW has been in the IT security trenches for decades. Any organization can apply the lessons our experts have learned to fundamentally shift its approach to security.

## More than 4,000

The number of security assessments conducted by CDW's security team

Many organizations are changing their approach to security. Instead of focusing solely on preventing intrusion, they design their defenses to also detect a breach and limit its impact.

An organization's defense is only as strong as its weakest link – users. Regular training helps to keep them from becoming the prey of social engineering attacks such as phishing.

51%

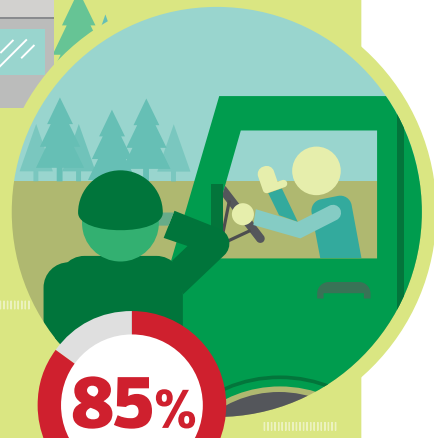

The proportion of users who can't detect a real email from a fake email<sup>2</sup>

## 146 DAYS

The median number of days it takes for organizations to discover a data breach<sup>1</sup>

Weak passwords are an invitation to a data breach. Many organizations should adopt more robust password policies

85%

The percentage of time CDW security testers are able to crack clients' passwords in less than 5 minutes

50%

The percentage of organizations that have trouble keeping up with security patches<sup>3</sup>

A disciplined program for patching and updating systems can mitigate hardware and software vulnerabilities.

CDW has seen it all, and we pass along the lessons we've learned to help improve your cyber defenses.

**\$126 BILLION**

The amount spent globally since 2015 by cybercrime victims on dealing with the incidents<sup>2</sup>
