

Optimize your next-gen firewalls for stronger security.

Next-Generation Firewall Health Check and Environmental Assessment

Safeguard your organization against evolving cyber threats with CDW's Next-Generation Firewall (NGFW) Health Check and Environmental Assessment. This suite of offerings, powered by CDW's deep bench of security consultants, empowers you to proactively identify configuration and design gaps, uncover any potential vulnerabilities, strengthen your security posture and confidently navigate the complexities of the ever-changing digital landscape. We can perform assessments for the following partners: Cisco, Fortinet, Palo Alto Networks and Zscaler.

Partner with CDW to gain a clear understanding of any potential Next-Generation Firewall environment risks, implement effective mitigation strategies and build a resilient foundation for your business's future.

Next-Generation Firewall Health Check and Environmental Assessment can help you achieve:

Reliability

Cost Reduction

Reduced Risk

Finding the Right Solution

CDW provides a thorough Next-Generation Firewall Health Check and Environmental Assessment designed to enhance your organization's security regardless of vendor or form factor. This engagement typically includes a one-hour session with a security expert who will review your initial NGFW analysis results, offer personalized recommendations and work with you to create a customized improvement roadmap. After the session, you will receive a detailed findings report and actionable plan. The engagement will include:

- A baseline security review session
- Comprehensive report findings
- Remediation and enhancements options

CDW's analysis includes review of the current firewall design and configuration to look for gaps or deficiencies in the following areas:

- Management connectivity
- Firewall resiliency
- Software version and patch levels
- Firewall networking configurations
- Firewall features and the corresponding firewall configurations

CDW's full lifecycle of Services can support your organization no matter where you are on your journey
