PrintReleaf Certification empowers you to sustain and grow our global forest system...one print job at a time.

**Benefits**

- **Environmental Reforestation**
  - Reforestation provides environmental and ecological reforestation where the planet needs it most.

- **Automation**
  - Completely automated, end-to-end integration from printer to seedling with no software to install.

- **Certification**
  - The PrintReleaf ecosystem is verified by our third-party certifying body, SGS International.

- **Recognition**
  - Through awareness, social marketing, and certifications, you can see and share the positive impact you have on forests around the world.

For **Office Print or Managed Print Services (MPS) customers**, PrintReleaf measures paper consumption through technology integrations with print monitoring software applications.

For **Commercial Graphic Print customers**, PrintReleaf measures paper consumption for each unique print job through technology integrations with MIS/ERP software solutions. PrintReleaf collects the paper volume, weight, and size data to drive the PrintReleaf service.

PrintReleaf uses this data to plant the equivalent number of trees through a network of certified reforestation projects located around the world. Once trees are planted, PrintReleaf administers an 8-year audit process to track the progress and survivability of the trees.
