

Strong security starts with cyber insurance preparedness.

Cyber Liability Insurance Preparedness (CLIP) Assessment powered by Coalition

Safeguard your organization against evolving cyber threats with CDW's Cyber Liability Insurance Preparedness Assessment powered by Coalition, the largest cyber insurance provider in North America. This suite of offerings, powered by the Coalition Control cyber risk management platform, empowers you to proactively identify externally facing vulnerabilities, strengthen your security posture and confidently navigate the complexities of preparing for cyber insurance.

Our expert-led engagements range from baseline assessments and customized roadmaps to a managed program with ongoing support and on-demand guidance.

Partner with CDW and Coalition to gain a clear understanding of your cyber risk, implement effective mitigation strategies and build a resilient foundation for your business's future.

Finding the Right Solution

CDW provides a thorough risk assessment engagement designed to enhance your organization's security. This engagement includes a two-hour session with a security expert who will review your initial assessment results, offer personalized recommendations and work with you to create a customized improvement roadmap. After the session, you will receive a detailed report and actionable plan. Additionally, a one-hour follow-up consultation within two months will assess your progress, address any new findings and offer continued support to help improve your organization's security posture.

The engagement will include:

1. A baseline security review session
2. Comprehensive report and roadmap
3. Follow-up consultation (60-90 days after baseline)

CDW's full lifecycle of Services can support your organization no matter where you are on your journey

CDW + COALITION

CDW and Coalition have partnered to help you:

- **Detect:** See your threat landscape the way cyber criminals do with Coalition Control, an insurance-based threat intelligence platform that monitors and detects vulnerabilities across your entire digital footprint.
- **Assess:** Get better visibility into which risks matter most with Coalition's data-driven insights, leveraging AI and real claims data to provide dollar-quantified cyber risk assessments.
- **Mitigate:** Resolve risks before they become attacks with Coalition's active risk management approach, helping prevent incidents before they occur.

Through our joint CLIP Assessment, we offer customers:

- **Dedicated Security Expertise:** Benefit from the knowledge and experience of a dedicated CDW security expert who understands your unique needs and security landscape.
- **Best Practice Implementation:** Receive expert guidance on implementing industry best practices and aligning your security program with recognized standards.
- **Tailored Remediation Strategies:** Develop customized remediation strategies that address both immediate and long-term security goals.

Services Overview

The CLIP engagement, a result of the partnership between CDW and Coalition, offers a strategic approach to assessing and understanding your organization's risk landscape, risk treatment portfolio and risk mitigation controls. This engagement is designed to equip your team with a clear and accurate understanding of your cyber risk exposure, serving as a crucial guideline for preparing for cyber liability insurance underwriting. The deliverables will include tailored and actionable near-term recommendations for closing gaps that negatively impact your ability to obtain underwriting, ultimately enhancing your organization's cyber resilience and readiness. By combining CDW's expertise with Coalition's data-driven insights and industry-leading technology, this engagement provides a comprehensive and effective solution for businesses seeking to improve their cyber security posture and obtain cyber insurance.

Offered in three tiers, the CLIP Assessments includes the following:

Activity	Essential	Essential Plus	Advanced
Baseline Session	✓	✓	✓
Baseline Report – from Coalition	✓	✓	✓
