

Empower Your Company's AI Future with the Acer TravelMate P6

IT leaders are often the ones tasked with driving their organizations' AI transformation. Your secret for success may just be the Acer TravelMate P6 – the AI performance laptop tailored for business professionals – as it puts the power, performance, and productivity of AI innovation at your workforce's fingertips.

For years now, IT leadership has been tasked with executing digital transformations to improve productivity and ready their organizations for the future. In the new AI era, across companies large and small, that pressure has intensified.

One strategy many IT teams are successfully using to drive their company-wide AI transformation is finding ways to directly connect their end users to AI technology. Perhaps the easiest way to achieve this strategy is by enabling them with a powerful yet easy-to-use (and for IT, easy to secure and manage) AI-powered device.

The Acer TravelMate P6 featuring Windows 11 Pro and Copilot is the easiest, most cost-effective, and most powerful way to quickly bring your users into the AI era.

Enter the Acer TravelMate P6, the AI performance laptop designed for business professionals.

AI-Assisted Productivity & Security with Windows 11 Pro and Copilot

You'll accelerate and invigorate your business with these high-performing laptops that meet the business demands of today and overcome the challenges of tomorrow. Loaded with Windows 11 Pro and Copilot in Windows, the Acer TravelMate P6 delivers the simplicity and flexibility that will help your team excel in the new era of AI.

According to three recent studies, harnessing the power of Windows 11 Pro with Copilot results in:

- A 42 percent faster completion of workloads¹
- A 58 percent drop in security incidents²
- A 68 percent improvement in the quality of work³

Your users will be able to achieve more with less thanks to immersive workflows that elevate performance. They'll also get the best security management safeguards to protect against evolving threats. As an organization, you can trust that your data is private when using Copilot, as content and search data is not saved, used to train AI models, or viewed.

The Acer TravelMate P6 featuring Windows 11 Pro and Copilot is the easiest, most cost-effective, and most powerful way to quickly bring your users into the AI era.

Power for the Future

The Acer TravelMate P6 is a premium business laptop powered by the latest Intel® Core™ Ultra processors and Intel vPro®, ensuring professional-grade experiences to your business leaders and mobile professionals who demand the very best.

You're also getting advanced graphics thanks to Intel® Arc, featuring Xe AI-enhanced upscaling and Xe media engine for smoother frame rates and media playback.

Other Acer TravelMate P6 ROI-maximizing features that can be found under-the-hood include:

- Up to 32 GB Dual-Channel LPDDR5X Memory
- Up to 2 TB M.2 PCIe Gen 4 SSD

You're also getting advanced graphics thanks to Intel® Arc, featuring Xe AI-enhanced upscaling and Xe media engine for smoother frame rates and media playback.

Indulge Your Senses

Looks and user experience matter greatly to end users, and the Acer TravelMate P6 will exceed even the highest expectations thanks to its captivating 2.8K (2880 x 1800) OLED display⁴ with touch option. Enhancing both visual and auditory senses, it offers a cinematic 16:10 narrow bezel and immersive DTS® audio experience.

This business laptop is also a joy to take on the road thanks to its thin and light frame, backlit keyboard, and extended battery life of up to 12 hours.

Acer AI: AI-Assisted Productivity

The Acer TravelMate P6 is an AI PC that delivers the latest innovative AI features to enhance business productivity and support professional tasks. Its AI features include:

- Copilot in Windows
- Acer TravelMate Sense
- Acer Experience Zone
- Acer LiveArt
- Acer AlterView
- Gimp + Intel® Stable Diffusion Plugin
- Acer PurifiedView
- Acer PurifiedVoice

Users can access Copilot in Windows by pressing the Microsoft Copilot hotkey, a button for accessing, managing, and customizing their PC, making AI incredibly easy to take advantage of while staying organized and in the flow. You'll see how Copilot effortlessly kickstarts writing projects or tackles problem-solving, and users can tailor Copilot's settings to their work style, increasing productivity further.

Users can manage all their AI and smart features on one interface with Acer TravelMate Sense, further expanding the accessibility and productivity of their AI tools.

These laptops also offer Acer Experience Zone, a collection of AI-related features that make creativity experiences a breeze. For example, Acer AlterView lets you personalize your laptop with live wallpapers and create a stunning dynamic parallax effect with the AI models to generate depth maps on 2D images. Additionally, GIMP + Intel® Stable Diffusion Plugin is a free,

Users can manage all their AI and smart features on one interface with Acer TravelMate Sense, further expanding the accessibility and productivity of their AI tools.

downloadable, open-source raster graphics editor users can use to generate art, illustrations, and images with just a few clicks and simple text input.

But those aren't the only ways the Acer TravelMate P6 takes advantage of AI. You'll also get Acer PurifiedView and PurifiedVoice, which use advanced AI algorithms to enhance webcam clarity and sound, so your users will always look and sound their best when connecting online.

The Ultimate in Mobile Productivity

The Acer TravelMate P6 helps ensure your user's mobile connection and productivity are always maximized. To start with, these laptops offer WiFi 7 and Bluetooth 5.3, so no one is hindered by slow connections.

This device also offers several features for ultra connectivity:

- Two Thunderbolt 4 Type C with 65W Power Delivery
- One USB 3.2 Gen 1 Type A
- One HDMI 2.1
- One MicroSD Card Reader
- Supports Fast Charging Technology

The Acer TravelMate P6 also offers Intel® Unison™, a software solution that seamlessly connects devices for a universal, easy-to-use experience. For example, users can make phone calls on their screen and receive phone notifications on their computers.

These devices are also rugged: The Acer TravelMate P6 has passed MIL-STD-810H military-grade testing, proof that it can stand up to the toughest tests for mechanical and vibrational shock as well as environmental threats like dirt, dust, humidity, and temperature fluctuations. There's also the Acer Dust Defender: software that automatically runs the device's fans backward periodically to ensure the machine remains dust free. It really is the ultimate laptop for discerning road warriors.

Designed for Sustainability

The Acer TravelMate P6 is EPEAT® registered, TCO certified, and incorporates recycled materials in its design. Furthermore, as part of Acer's Earthion initiative, its eco-consciousness extends to the use of 100 percent recyclable packaging materials.

The Acer TravelMate P6 has passed MIL-STD-810H military-grade testing, proof that it can stand up to the toughest tests for mechanical and vibrational shock as well as environmental threats like dirt, dust, humidity, and temperature fluctuations.

Security You Can Trust (and Easily Manage)

Enter a realm of unrivaled security and comprehensive administration where your data is safeguarded on multiple levels.

You know you have security you can trust with Windows 11 Pro. Designed for the world of hybrid work; Windows 11 Pro empowers employees to do their job securely from anywhere. Features include:

- **TPM 2.0:** Your hardware is secured by default with discrete trusted platform module (TPM) 2.0
- **Security out-of-the-box:** This includes phishing safeguards, passwordless security, and app control
- **Modern security management:** Streamline security management across diverse locations and extend your security to the cloud

These laptops also use AI to help detect various threats thanks to Copilot for Windows as well as Intel® Threat Detection Technology, which can identify early indicators of an attack.

The Acer TravelMate P6 offers biometric security via a fingerprint reader (the ultimate non-replicable password!). Users will get additional protection from the built-in camera privacy shutter.

Uncompromising Excellence for an AI Future

Integrating Windows 11 Pro with Copilot, Intel® Core™ Ultra processors, and AI-assisted productivity features to improve collaboration, security, and operational efficiency, the Acer TravelMate P6 gives modern professionals the power and flexibility to adapt and excel in the new era of AI. With the Acer TravelMate P6, you truly can empower your company's AI future.
